## The computer crashed..... Again !

Software To Go has your solution.

Computers need tune-ups just like automobiles. There is enough stress in the day without worrying about how your computer is running.

There is no reason to tolerate a slow computer, worry if your data will be lost or your identity is being compromised.

Your day can stay on track. Having your computer go down can be devastating. We can help prevent a system failure.

Software To Go has been caring for computers since 1983.

Let us prevent problems before they start!

An experienced technician will visit you **four times a year** to tune-up your computer for just \$179.95 per computer. We will keep your computer running smooth and worry free!

### The Computer is sick again!

*Think of us as your local computer doctor that actually makes house calls.*

## Residential Quarterly Preventative Maintenance

We perform these services **FOUR** times a year at your location or in our service department:
